CC: alef@research.haifa.ac.il

I am happy to announce that the conference on the 1948 historiography in its original form and with Udi Adiv, Teddy Katz, Asad Ghanem, Salman Natur and Ilan Pappé will take place on June 17, 2003 at 12:00 in a room to be announced. You are all kindly invited to take part and attend.

I recall that during the exchange about the conference, Professor Sophia Menashe complained that i never write about the good things that happen in our university, i hope this message proves that this is not the case.

I wish to thank all those who supported the appeal urging the 'management' of the university to reverse its previous decision to cancel the conference, by force. I hope you feel, as I do, that such small achievements in the struggle for freedom of speech in our campuses do count in the end of the day.

yours
ilan pappe.
