Israel universities - further statement to members

AUT general secretary Sally Hunt has issued a further statement to members following the AUT Council decision to boycott two Israeli universities.

Ms Hunt said: 'The national executive will issue guidance to local associations on the implementation of the boycotts of the two Israeli universities in due course.'

Until this guidance is issued, it is stressed that members should be advised to not take any action in relation to a boycott which would place them in breach of their contract of employment.'
