

# 2020 Workshop on Machine Learning for Communications (MLCOM)

## Topics of interest

REGISTER NOW  
(free of charge)

[Link to the site](#)

- Is data-driven better than model-driven in wireless communication?
- Where does ML succeed in communication?
- Is ML+5G=6G?

## Key speakers

### Prof. Merouane Debbah ,

Founder and Director of the Huawei Mathematical and Algorithmic Sciences Lab (Paris, France)

### Prof. Henry Pfister,

Duke University

### Prof. Osvaldo Simeone,

King's College London,  
Director of King's Communications

### Prof. Deniz Gunduz,

Imperial College London

### Prof. Pramod Viswanath,

University of Illinois at Urbana-Champaign

### Prof. Muriel Médard,

Cecil H. Green Professor of EECS, MIT

### Dr. Doron Ezri,

CTO Wi-Fi, Data Comm. Product Line, Huawei

### Dr. Zion Hadad,

CEO & Founder, Runel

### Prof. Shlomo Shamai,

Distinguished Professor, EE, Technion

### Prof. Haim Permuter,

Ben-Gurion University

## Honored by

**Dr. Ami Appelbaum,** Chairman of the Board, Israel  
Innovation Authority & Chief Scientist, Ministry of Economy and Industry
