

Mayer Aladjem received the M.Sc. degree in electrical engineering and applied mathematics and the Ph.D. degree in electrical engineering from Technical University, Sofia, Bulgaria. He was an Associate Professor of biomedical cybernetics with the Bulgarian Academy of Sciences, Sofia.

In 1991 he joined the Electrical & Computer Engineering department at Ben-Gurion University, Israel. He is currently an Associate Professor in the same department, where he was the Head of the Pattern Recognition and Intelligent Data Analysis Laboratory. His research interests include Statistical pattern recognition and machine learning, Neural networks for pattern recognition, Multivariate data analysis, feature extraction and reduction. Prof. Aladjem was the Chairman of the 2001 International Symposium on Advances in Intelligent Data Analysis, Bangor, U.K. He was a keynote lecturer in the international conferences, including CIMA'2001, University of Wales, Bangor, ICAMEE 2005, Sozopol, Bulgaria, and IC3K 2011, Paris, France. He was the Guest Editor of the *International Journal of Knowledge-Based Intelligent Engineering Systems* Special Edition: Advanced Data Analysis and Biomedical Applications. Prof. Aladjem was an Associate Editor of *Pattern Analysis and Applications*. For more information, see <http://www.ee.bgu.ac.il/~aladjem/>.

In October 2018 he officially retired but he continues to work on some projects and teach graduate pattern recognition (machine learning) courses.
