Affordable and Feature Rich Measurement Tool

The 34405A represents the latest member in the Agilent's DMM family and this expands Agilent's offerings in the electronics measurement tools. It provides a broad range of features and measurement functions such as DC voltage, DC current, true-RMS AC voltage and AC current, 2-wire resistance, frequency, diode test and continuity which are designed to meet general industrial needs. Furthermore, it can measure temperature ranging from -80oC to 150oC. The true value is more evident with its capability to measure capacitance ranging from 1000pF to 10000mF. Agilent 34405A also improves efficiency and accuracy with its 6 built-in math operations: Null, dBm, dB, MinMax, Limit and Hold.

Quick Connection to the PC with USB 2.0 Interface

For those with a need to control and take preset measurements with a PC, the builtin USB 2.0 interface provides an easy and robust connection between the PC and DMM. The USB interface connects directly to the PC host and works seamlessly with Agilent Connectivity software and can be controlled remotely via industry standard SCPI commands or through DMM Intuilink Connectivity software. IVI-COM and LabVIEW drivers are included to ensure an easy integration with different programming environments.

Bright Display, Fast Reading Speed and Configuration Storage

When high throughput and productivity are the priority, Agilent 34405A VFD dual display feature allows users to take more than one measurement and display them simultaneously on the front panel. For speed critical applications, Agilent 34405A can take up to 19 readings/sec at 4.5 digits resolution directly to the PC. In addition, the user can configure and store complete instrument setups and recall them at anytime from any of the four builtin storing states.

Rugged and Reliable

The 34405A is designed and tested according to major Safety and Regulatory Standards. In addition, the shock absorbing bumpers is designed to prevent physical damage from your day-to-day use.

You can watch 344051 in action on your PC by downloading the interactive demo from the 34405A homepage at www.agilent.com/find/34405a
